Cost of Care - Full Time Weekly

	Center			Family Child Care			School Age		
	Min	Avg	Max	Min	Avg	Max	Min	Avg	Max
Infant	X	X	X	$75	$75	$75	X	X	X
4 Year Old	X	X	X	$80	$80	$80	X	X	X
School Age	X	X	X	$25	$25	$25	$30	$30	$30

**** calculated by taking FCC Programs multiplied by 4 as that is the maximum unrelated children**

Income of Families – In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount. Although the family income statistics cover the past 12 months, the characteristics of individuals and the composition of families refer to the time of interview. Thus, the income of the family does not include amounts received by individuals who were members of the family during all or part of the past 12 months if these individuals no longer resided with the family at the time of interview. Similarly, income amounts reported by individuals who did not reside with the family during the past 12 months but who were members of the family at the time of interview are included. However, the composition of most families was the same during the past 12 months as at the time of interview.

Supply & Capacity Data

Information included in this report is maintained by Child Care Aware® of Missouri and is based on reports from the Department of Health and Senior Services and other sources. Because child care programs change frequently, the Department of Health and Senior Services should always be contacted for the most exact number of licensed programs and licensed capacity data.

Child Care Aware® of Missouri tracks data on licensed child care, early learning and after-school programs across the state, as well as on early learning and after-school programs that opt-in to regulations or listing for referrals to families. Therefore, Child Care Aware® of Missouri recognizes that there is a group of child care, early learning and after-school programs that are not captured in these totals because they are not required to provide information about themselves to any authority. Child care facilities operated by religious organizations and nursery schools (facilities that serve each child for no more than four hours a day) are required by statute to be inspected but are exempt from licensure. Family child care homes that serve four or fewer unrelated children and child care provided by public or private K-12 education are some examples that are not subject to regulation.
